

## TPP Onboarding (v2.0-beta)

A TPP can request credentials for the OpenBanking sandbox and LIVE environments submitting an API request to the following endpoints

POST <BASE\_URL>/openbankingext/v1/onboarding/requests

Content : application/json

```
{
  "contactEmail": "<CONTACT_EMAIL>",
  "pspRoles": ["<PSP_ROLE1>", "<PSP_ROLE2>"],
  "redirectUris": ["<REDIRECT_URI1>", <REDIRECT_URI2>, ... ]
}
```

A valid response is 202 with an empty payload, since the onboarding process requires, for security reasons, admin approval.

The connection must be secured by mTLS, where the calling party should present a valid eIDAS QWAC certificate.

<BASE\_URL> depends on the environment the TPP is requesting access.

For SANDBOX environment the value is "https://tp-pp.flowe.com", while for LIVE environment is "https://tp.flowe.com".

<CONTACT\_EMAIL> is the email address where the TPP wants to receive credentials and further info regarding planned maintenances and other important communications for TPPs.

<PSP\_ROLE>: can assume two values: "PSP\_AI", which stand for AISP, and "PSP\_PI", which stand for PISP. Set the field according to roles the TPP is requesting.

<REDIRECT\_URI>: Given that Flowe AuthN/AuthZ mechanism is SCA Approach with OAuth2 pre-step, this parameter contains OAuth2 Authorization Code Grant redirect URIs for the TPP client.

For any further information or issues encountered during the onboarding process, please contact openbanking at flowe dot com.

## TPP Onboarding (v1.0-old)

A TPP can request credentials for the PSD2 sandbox environment and the LIVE PSD2 environment by sending an email to [openbanking@flowe.com](mailto:openbanking@flowe.com), specifying in the subject “[PSD Sandbox]” in the former case, while “[PSD2 LIVE]” for the latter, and the information specified in the following table.

	Sandbox	Live
eIDAS QWAC certificate	Mandatory	Mandatory
Desired PSP roles	Mandatory	Mandatory
TPP Name	Mandatory	Mandatory
TPP Country	Mandatory	Mandatory
TPP City	Mandatory	Mandatory
TPP Address	Mandatory	Mandatory
TPP Postal Code	Mandatory	Mandatory
OAuth2 Redirect Uri	Mandatory	Mandatory
Company’s Corporate Name	Mandatory	Mandatory
Company’s VAT Number	Mandatory	Mandatory
Company’s Website	Mandatory	Mandatory
Name and country of origin of the National Competent Authority	Optional	Optional
Registration number of the National Competent Authority	Optional	Optional
